Summit Themes

Teacher Development

English is now the *lingua franca* of international business, and increasingly the medium of instruction in education – bringing sharply into focus the language teaching strategies of the South Asia region, and the skills and abilities of English language teachers. The teacher's own language therefore becomes the model which learners follow; this raises a number of questions:

- Which model? Can a teacher whose own language ability is still developing be an acceptable model?
- Should more importance be given to a learner's first language(s)?
- What should be the focus of language improvement courses for teachers?
- How should these differ from language improvement courses for learners?

Digital Learning

Digital learning technologies are transforming the ways in which English is taught and learned. For the first time, learning is becoming truly student-centred, based on a student's competency, with skills acquisition measured through formative, learning orientated assessment. Digital technologies also allow learning outside the classroom, and the automation of routine marking and feedback gives teachers more time to motivate, support and nurture their students. This session will consider how best to evaluate digital learning tools as effective learning instruments, and how to integrate digital learning into both the classroom and new learning environments. We also hope that by bringing together educationalists, content specialists and digital entrepreneurs we can identify new solutions to take forward.

Employability

Although English language ability is becoming a prerequisite for entry into the global workplace, school leavers and graduates need a wide variety of other skills to make them employable, and to enable real career development. Often described as 'personal', 'soft' or '21st century' skills, strengths in critical thinking, creativity and communication are vital to business development, along with the ability to collaborate and to work as a team. This is especially true in South Asia's burgeoning STM (science, technology and medicine) sector where academic, technical and research skills are highly developed but often at the expense of the soft skills essential for productive employment. This session aims to examine and prioritise these additional skills, and determine the best way to develop and nurture these abilities in order to create fully rounded employees. How should these differ from language improvement courses for learners?

SOUTH ASIA PARTNERSHIP SUMMIT

23 & 24 FEBRUARY 2016 NEW DELHI, INDIA

Research and Innovation

Research and innovation are key drivers of national prosperity. The pre-requisites for a world class research eco system are the availability of adequate infrastructure and funding, in order to yield high-quality research outputs. The new models of public-private funding have provided momentum to research, but direct government funding also plays a key role.

The session aims to bring together practitioners from research organisations and industry who will share their learning on the factors that drive effective research and innovation. The platform encourages knowledge sharing from all public and private institutions involved in research and innovation, including research-focused organisations, commercial users of research and funding providers.

23 & 24 FEBRUARY 2016 NEW DELHI, INDIA

Speakers

Professor Sir Leszek Borysiewicz

Vice Chancellor, University of Cambridge

On 1 October 2010 Professor Sir Leszek Borysiewicz became the 345th Vice-Chancellor of the University of Cambridge.

He was Chief Executive of the UK's Medical Research Council from 2007; from 2001 to 2007 he served as Principal of the Faculty of Medicine and later as Deputy Rector at Imperial College London.

Born in Wales, to Polish parents who settled there after the Second World War, he attended Cardiff High School and went on to the Welsh National School of Medicine, later taking up clinical and research posts in London. In 1988 he came to Cambridge as Lecturer in Medicine, and was a Fellow of Wolfson College (where he is now an Honorary Fellow). He went on to be Professor of Medicine at the University of Wales for the ten years until 2001.

As Deputy Rector of Imperial College, Sir Leszek was responsible for the overall academic and scientific direction of the institution, particularly the development of inter-disciplinary research between engineering, physical sciences and biomedicine.

Concurrently with his position at Imperial College, Sir Leszek was also Governor of the Wellcome Trust (2006-2007), Chairman of the UK Clinical Research Collaboration's Integrated Academic Training Awards Panel (2005-2007), and Chair of the HEFCE RAE Main Panel A Assessment Panel.

Professor Borysiewicz was knighted in the 2001 New Year's Honours List for his contribution to medical education and research into developing vaccines, including work towards a vaccine to combat cervical cancer.

He was a founding Fellow of the Academy of Medical Sciences in 1996 and a member of its Council from 1997 until 2002, Chairman of the NHS (Wales) R&D Grants Committee and acting Director of NHS (Wales) Research and Development (1994-1996), a member of the Council of Cancer Research UK (2002-2005), a Non-Executive Director of North Thames Regional Health Authority (2003-2004) and a member of the MRC Council from 1995 to 2000. He was elected a Fellow of the Royal Society in 2008.

23 & 24 FEBRUARY 2016 NEW DELHI, INDIA

Professor Ted Briscoe

Professor of Computational Linguistics, University of Cambridge

Ted Briscoe is Professor of Computational Linguistics at the University of Cambridge and the inaugural director of the Alta Institute, which conducts research into automated language teaching and assessment. He has published over 100 research articles and three books in the area of automated speech and language processing. He is co-founder and CEO of iLexIR Ltd, a consultancy and technology provider specialising in language processing applications. In 2009, iLexIR spun-out Swiftkey, maker of the world's most popular predictive keyboard for smartphones. In 2015, he co-founded English Language iTutoring Ltd, a joint venture with Cambridge English to deploy cloud-based automated assessment and tutoring technology for English as a further language.

Nishan Fernando

Past President, Institute of Chartered Accountants of Sri Lanka

Nishan has functioned as President (2008-09), Vice President (2006-07) and Council Member (2000-05) of the Institute of Chartered Accountants of Sri Lanka. He has chaired the Education and Curriculum Development Committee and has been a member of the Examination Committee of the Institute. He functioned as a member of the International Accounting Education Standards Board and is now serving in its Consultative Advisory Group. He also has served on the Governing Boards of Postgraduate Institute of Management and National Institute of Business Management. Nishan has been actively involved in curriculum development and revision projects of the Institute. He chaired the Accounting Standards Committee when Sri Lanka Accounting Standards converged with IFRS. He has also served as a Commission Member of the Securities & Exchange Commission of Sri Lanka, and as a member of the Sri Lanka Accounting and Auditing Standards Monitoring Board.

He is currently functioning as the Managing Director of BDO Consulting (Pvt) Limited. He is also functioning as an Independent Director of First Capital Holdings PLC and its subsidiaries. Nishan counts over 20 years of experience, holding senior positions in the fields of Accounting and Finance.

23 & 24 FEBRUARY 2016 NEW DELHI, INDIA

Angela ffrench

Director of Operations – South Asia, Cambridge English Language Assessment

Based in Chennai, Angela ffrench co-ordinates the activity of Cambridge English Language Assessment within the South Asia region, providing quality assessment services to both the education and corporate sectors.

Angela has over 40 years' experience of teaching and testing English. Having joined Cambridge English in 1991, she has been involved in all aspects of developing and administering tests and assessment criteria, in the training of item writers and examiners, in pretesting and analysing test material, in the grading of examinations, and in raising awareness of the CEFR.

Her work in the region involves raising awareness with Ministries of Education, Vice-Chancellors of Universities, and Principals of schools of the need to view English language as a skill. This gives learners of all ages the ability to communicate better, so providing them with freedom of movement in the world of work, and better understanding and closer co-operation with people from different language and cultural backgrounds.

Angela holds an MA from the University of Cambridge and an MEd in Language Testing from the University of Bristol. She has published and presented on a range of topics relating to assessment. Before moving to Chennai, Angela headed the teams responsible for producing the Cambridge English Young Learner tests and the IELTS exam.

Amitava Ghosh

Director, GEMS Skills

Amitava Ghosh, an industry veteran in the education and training sectors, is a Director in GEMS Skills (part of GEMS Education, which runs international schools that set a benchmark for quality education today and shape the future of learning for the next generation). GEMS Skills envisions to create a paradigm in skill development and corporate training, globally, under his leadership.

Amitava was with the Reliance Group where he spent over a decade with Reliance HR Services (RHRS) and NIS Sparta Ltd as Chief Operating Officer. While founding and conceptualizing RHRS, he provided vision and thrust, creating a world-class talent enterprise of immense scale. Before his association with the Reliance Group, Amitava was also Managing

SOUTH ASIA PARTNERSHIP SUMMIT
23 & 24 FEBRUARY 2016 NEW DELHI, INDIA

Director of Aptech Worldwide, in South East Asia, where under his leadership Aptech became an IT partner to various governments and evolved far beyond being a training company.

Amitava is a Bachelor of Engineering from Jadavpur University, Calcutta and a postgraduate from IIM Calcutta. He regularly contributes to print and electronic media and is an engaging speaker in various forums. As a connoisseur of culture, he was a correspondent for All India Radio and a trained Rabindrasangeet vocalist. He loves soccer too and supports his wife, who is a professional Odissi dancer in her cultural pursuit.

He resides in Navi Mumbai with his family – parents and wife, all postgraduates from the prestigious - Presidency College, Kolkata and his son, Neelak and daughter Rookkatha.

Dr Loveleen Kacker

CEO, Tech Mahindra Foundation

Dr Loveleen Kacker has worked with governments, institutions and organisations, in important roles that involved high stakes, large budgets and diverse teams. She brings in over three decades of planning and administrative experience, from a number of senior roles that she played in the Indian Administrative Service (IAS), where she made impactful contributions in the areas of women and children, framing national policies on child welfare and drafting legislations for welfare schemes for the poor and disadvantaged sections of society. She has expertise in the areas of child education, child nutrition and child protection, and has worked for more than a decade in social sector ministries and departments.

Some of her notable career positions in the IAS include Director, Madhya Pradesh State Council of Educational Research and Training (MPSCERT); Director, Administrative Training Institute, Bhopal; Deputy Secretary and Director, Ministry of Food, Government of India; and Collector and District Magistrate, Betul.

She has authored several novels and stories for children, which won her national acclaim. She has been awarded the national-level Children's Book Trust Award for children's writers twice for her literary talents. Widely travelled, she is a member of numerous institutions and has spoken at several international forums.

SOUTH ASIA PARTNERSHIP SUMMIT

23 & 24 FEBRUARY 2016 NEW DELHI, INDIA

Dr Hanan Khalifa

Head of Research & International Education, Partnerships, Projects and Policy Division, Cambridge English Language Assessment

Hanan Khalifa heads International Education, leading a cross-divisional team of Cambridge English experts in the field of language learning, teaching and assessment working with ministries of education and developing strategic partnerships. Previously, Hanan has held ministerial roles as adviser to Minister of Education, and worked for international development agencies and educational firms (CfBT, AMIDEAST, AIR, AED). Hanan's expertise lies in: language testing, educational assessment, monitoring and evaluation, standard setting, research (methodology, instrument design, data analysis), and institutional capacity-building. Her work experience includes: education reform, curriculum and syllabus design, materials development, teacher training, baseline and impact studies, internal auditing, and managing large surveys (TIMSS & PISA). Hanan is an expert member on Council of Europe CEFR panels and EAQUALS inspection committee. She has presented worldwide, with a track record of over 60 conference presentations and 30 publications including *Examining Reading* (used as course/key reference material by ALTE and master's programmes in UK universities). She was the recipient of the 1989 Hornby Award for ELT and a joint winner with Burns and Brandon of the 2013 IEAA award for Innovation in International Education.

Ben Knight

Director of Research and Consultancy, Cambridge University Press

Ben Knight joined Cambridge University Press five years ago and is now their Director of Research and Consultancy. His responsibilities include ensuring that high-quality research underpins the learning materials, curriculum development and teacher support that CUP provides. He also works closely with Cambridge English Language Assessment to enable the two university departments to offer an integrated service to teachers and organisations around the world involved in educational reform. Ben has taught EFL in six countries, across three continents. He later became a specialist in assessment, working for Cambridge English Language Assessment (then UCLES) and City & Guilds. He holds an MSc in Applied Linguistics.

 **CAMBRIDGE ENGLISH**
SOUTH ASIA PARTNERSHIP SUMMIT
23 & 24 FEBRUARY 2016 NEW DELHI, INDIA

Ratnesh Kumar Jha

MD, Cambridge University Press (South Asia)

Ratnesh heads the Cambridge University Press for its South Asia region. Since his appointment as Managing Director of Cambridge University Press India in December 2013, Ratnesh has focused his efforts towards investment in Cambridge India to leverage opportunities in the entire South Asian publishing region. His initiative of establishing 'Centres of Excellence' in India to facilitate increased research-based projects and creation of Intellectual Property in South Asia has been well received and appreciated.

With a management career spanning more than two decades, Ratnesh has held senior management posts for a number of global digital, technology and education firms, including Vodafone, Citibank GE Capital and Reliance Telecom. This experience has given him deep insight into the power of education technology and equipped him to unlock the wealth of Cambridge's educational materials and develop them to be consumed by the next generation of students across both India and the South Asia region as a whole.

He is a qualified postgraduate from Northwestern University – Kellogg School of Management. He additionally holds a second postgraduate degree in Humanities from the prestigious Jawaharlal Nehru University. His other interests include extensive reading, exchanging thoughts with visionaries and leaders across industries, following latest trends in technological advancements particularly in Education space, engaging with society upliftment programmes and challenging established lines of thinking.

Dr Vandana Lulla

Director, Podar Group

Dr Lulla has attained a doctorate degree in "Managing learning disabilities using Technology." She has more than a decade long experience in the education industry. Under her astounding leadership and maintaining high institutional quality, her school has secured a hat-trick in terms of "Best School Award" by Digital Learning, Hindustan Times and Education World. Her students have topped in the world and in India in the Cambridge International Examinations. She has also been one of the very first pioneers to introduce i-Pad and 3D technology in the classrooms and thus, under her leadership, her school was awarded consecutively the E-India Public Choice Award 2011 and Best Use of Technology for Teaching and Learning 2012. Her school is a paperless digital school. She has also undertaken international projects on adding a global dimension into the curriculum using technology which led to the Podar International School being bestowed twice with the International School Award by the British Council. Her prime aim is to give back to the society in the form of community service. She has used

CAMBRIDGE ENGLISH

23 & 24 FEBRUARY 2016 NEW DELHI, INDIA

technology to train more than 100 students with learning disabilities and taught children who are suffering from cancer.

Her passion is never-ending and infinite. Her dream is to place Podar International School/ College on the global education map by transforming it into a world-class university.

Saul Nassé

CEO, Cambridge English Language Assessment

Saul is Chief Executive of Cambridge English Language Assessment. Saul studied Natural Sciences at Cambridge University and spent three years as a research scientist at Cranfield University, before joining the BBC. In a 23-year career at the corporation he was Editor of prime-time science show *Tomorrow's World*, Head of Religion and Ethics, and General Manager of BBC Worldwide Productions in Mumbai, where he was responsible for the Indian version of *Strictly Come Dancing*.

His last job at the BBC before joining Cambridge English in March 2014 was as Controller of BBC Learning, where he ran the department that commissioned and produced the BBC's education programmes and websites. These included *Stargazing Live*, *BBC Food*, *Bitesize*, and the innovative new learning online product, *iWonder*.

Mark O'Neil

Executive Director, Cambridge University Press, Australia and CEO of HOTmaths Pty Ltd

Mark O'Neil is Executive Director at Cambridge University Press Australia and CEO of HOTmaths Pty Ltd. Mark has over 20 years' experience in the publishing industry. He has a background in teaching, teacher development, sales and general management. He was Director of the Press's operations in Japan, Korea and Taiwan before moving to Melbourne to head the Press's businesses in Australia, New Zealand and the Pacific.

He has overseen the continuing digital transformation of the Cambridge Australia business and instigated the partnership with HOTmaths, an innovative cloud-based education resource provider, of which he is CEO. Syllabus-specific, cutting-edge HOTmaths products can be found in Australia, South Africa, and the UK, and are now being launched in India, where curriculum change and technology are having a positive impact on education.

SOUTH ASIA PARTNERSHIP SUMMIT

23 & 24 FEBRUARY 2016 NEW DELHI, INDIA

Mohandas Pai

Chairman, Manipal Global Education and Chairman, FICCI Skill Development Forum

Mohandas Pai is the Chairman, FICCI Skill Development Forum and the Chairman, Manipal Global Education. Earlier Mohandas was a Member of the Board of Directors of Infosys and Head – Administration, Education and Research, Financial, Human Resources, and Infosys Leadership Institute.

He was a key player in the development of the IT services industry in India and instituted several industry-firsts in the country. He is a Member of the Board of SEBI and Empowered Committee for setting up the Tax Information Network of the Government of India. He was a Trustee of the International Financial Reporting Standards Foundation and a Member of Dr Anil Kakodkar Committee on Autonomy for the IITs and the Karnataka Knowledge Commission.

He is currently a Member on the Boards of IIT, Hyderabad and IPE, Hyderabad.

Professor M M Pant

Former Pro-VC, IGNOU

Professor Pant has a PhD in Computational Physics (IIT, Roorkee), with a Professional Law degree (Kanpur University), and pursues pedagogy, technology, curricula and entrepreneurial models for disruptively transforming education. He has been a member of the Board of Governors of IIT Delhi and on various committees of academic bodies such as CBSE, NIOS, NCERT, UGC, CEC, NUEPA, NCTE.

He believes that the purpose of using technology in education is to go beyond the initial phase of being a 'broadcast' tool to a 'data driven learning model' that helps every learner become a better self-directed autonomous learner, every teacher a transformational inspirational educator, and every parent an informed enlightened parent who can mould the cognitive and emotional development of their children.

He is also a promoter of mobile life-long learning with an initiative of '2nd Innings: learning opportunities for the 40+', and a pool of 108 course units organised as 18 tracks that run as weekly programs run entirely on WhatsApp.
